# Wedding Transportation Guide

Congratulations! You are engaged and it is time to start planning the most important day of your life! No pressure... when it comes to providing your wedding guests with safe and reliable transportation, let Gettysburg Group Reservations do the work! The key to the most efficient and economical plan is set in motion as soon as your wedding planning begins. The information below has been collected by experts who have decades of providing wedding transportation services to the Gettysburg area.

- Communication is the key! As you assemble your wedding information on your website be sure to let your guests know that you will be providing transportation for some or all aspects of the day.
- Contact your transportation service company to check dates/times and availability. The earlier the better is always the case. Together with your reservations specialists you can estimate your needs and reserve the date.
- As you refine the details and choose the hotel room blocks you will want to decide which hotel will be your host hotel/s from which to provide the transportation and indicate this to your guests on the website.
- As you are designing your wedding invitation and response cards, make sure to include a line and check box for your guests to indicate whether they plan to use the provided transportation.
- As you get your response cards back, and finalize your head counts for the wedding, contact your reservations specialist to make any necessary adjustments. The standard deadline for adding or subtracting vehicles from the scheduled service is two weeks so it is important to be diligent about communicating with your transportation provider in advance.
- Provide a contact person for the day of, either a wedding planner or someone trustworthy that the drivers may contact with any questions and vice versa.
- Don't forget to tip your drivers! We are happy to include gratuity in the regular charge if you prefer.

If you are looking for comfortable, safe transportation for your wedding guests contact us today!
